Saturday 20th November	<i>The Cambrian Explosion</i>	Rachel Woods (University of Edinburgh)	<b>Zoom</b>
Saturday 11th December	<i>Living in a Cretaceous greenhouse world</i>	Andy Gale (University of Portsmouth)	<b>Zoom</b>
<b>2022</b>			
Saturday 8th January	<i>Holiday Geology</i>		tbc
Saturday 22nd January	<i>Geological influences on the development of the city of Bath and its environs</i>	Kevin Privett (University of Portsmouth)	Cardiff
Saturday 19th February	<i>The Red Rocks of Pembrokeshire</i>	Brian Williams (University of Aberdeen)	Swansea
Saturday 19th March	<b>AGM &amp; Presidential Address: Bivalve Mounds and Reefs of the Middle Lias (Domerian) of the Central High Atlas Morocco</b>	Chris Lee	Cardiff

All meetings start at 11.00am except the AGM which begins at **10.30 am**. The first three meetings of the session, up to Christmas, will be delivered on-line via Zoom. An explanatory guide for anybody who has not used this system can be found on the Group's web site.

We are hoping that in the New Year we may be able to once again meet in person so have planned the venues as shown. If this is to occur then refreshments will be served from about 45 minutes before the start of each meeting. In the event that we are not able to use the university facilities after Christmas then the rest of the programme will also be delivered via Zoom, including *Holiday Geology*.
